and two loggias.

The real gems of this house you will find in the garden – everyone's favorite summer kitchen, two terraces, a sunbathing area, and a unique pool of 48 m2. The pool is built on the foundation of old stone house ruins, which makes it look as though it is a part of nature, completely immersed in the environment.

On the property, there are 100-year-old trees of oak and mulberry, as well as other Mediterranean vegetation such as olives, pomegranate, fig, and others. As far as the view from the house is concerned, you can choose your favorite – the sea, the vineyards, or the olive groves that surround the lot.
